

*"IMAGING: The Tools of Science"—Explore virtual reality and computerized imaging and how they're used in science, law enforcement and medicine—and for fun!*

# Museum of Science and Industry

## Chicago

We've got  
fun down  
to a  
science!®

Worked closely with the Chicago Museum of Science and Industry to design a Boom-type immersive display for use in a heavily visited public exhibit. Still in use, hundreds of thousands of patrons have experienced *Imaging, the Tools of Science* since 1993.
